

Use multiplication rules to determine the missing remainder for each problem.

Answers

1) $4,395 \div 5 = 879 \text{ r } \underline{\hspace{2cm}}$

2) $121 \div 10 = 12 \text{ r } \underline{\hspace{2cm}}$

1. _____

3) $4,866 \div 10 = 486 \text{ r } \underline{\hspace{2cm}}$

4) $803 \div 2 = 401 \text{ r } \underline{\hspace{2cm}}$

2. _____

5) $91 \div 2 = 45 \text{ r } \underline{\hspace{2cm}}$

6) $419 \div 2 = 209 \text{ r } \underline{\hspace{2cm}}$

3. _____

4. _____

7) $1,157 \div 5 = 231 \text{ r } \underline{\hspace{2cm}}$

8) $39 \div 10 = 3 \text{ r } \underline{\hspace{2cm}}$

5. _____

6. _____

9) $92 \div 5 = 18 \text{ r } \underline{\hspace{2cm}}$

10) $194 \div 2 = 97 \text{ r } \underline{\hspace{2cm}}$

7. _____

8. _____

11) $6,518 \div 2 = 3,259 \text{ r } \underline{\hspace{2cm}}$

12) $435 \div 5 = 87 \text{ r } \underline{\hspace{2cm}}$

9. _____

10. _____

13) $29 \div 2 = 14 \text{ r } \underline{\hspace{2cm}}$

14) $976 \div 2 = 488 \text{ r } \underline{\hspace{2cm}}$

11. _____

12. _____

15) $1,686 \div 10 = 168 \text{ r } \underline{\hspace{2cm}}$

16) $909 \div 2 = 454 \text{ r } \underline{\hspace{2cm}}$

13. _____

14. _____

17) $133 \div 10 = 13 \text{ r } \underline{\hspace{2cm}}$

18) $285 \div 10 = 28 \text{ r } \underline{\hspace{2cm}}$

15. _____

16. _____

19) $2,498 \div 5 = 499 \text{ r } \underline{\hspace{2cm}}$

20) $66 \div 10 = 6 \text{ r } \underline{\hspace{2cm}}$

17. _____

18. _____

19. _____

20. _____

Use multiplication rules to determine the missing remainder for each problem.

Answers

1) $4,395 \div 5 = 879 \text{ r } \underline{0}$

2) $121 \div 10 = 12 \text{ r } \underline{1}$
