

Use multiplication rules to determine the missing remainder for each problem.

Answers

1) $542 \div 10 = 54 \text{ r } \underline{\hspace{2cm}}$

2) $68 \div 10 = 6 \text{ r } \underline{\hspace{2cm}}$

1. _____

3) $92 \div 5 = 18 \text{ r } \underline{\hspace{2cm}}$

4) $26 \div 10 = 2 \text{ r } \underline{\hspace{2cm}}$

2. _____

5) $8,486 \div 10 = 848 \text{ r } \underline{\hspace{2cm}}$

6) $238 \div 10 = 23 \text{ r } \underline{\hspace{2cm}}$

3. _____

7) $597 \div 10 = 59 \text{ r } \underline{\hspace{2cm}}$

8) $145 \div 2 = 72 \text{ r } \underline{\hspace{2cm}}$

4. _____

9) $984 \div 2 = 492 \text{ r } \underline{\hspace{2cm}}$

10) $716 \div 2 = 358 \text{ r } \underline{\hspace{2cm}}$

5. _____

11) $7,932 \div 2 = 3,966 \text{ r } \underline{\hspace{2cm}}$

12) $2,620 \div 10 = 262 \text{ r } \underline{\hspace{2cm}}$

6. _____

13) $5,109 \div 2 = 2,554 \text{ r } \underline{\hspace{2cm}}$

14) $8,467 \div 2 = 4,233 \text{ r } \underline{\hspace{2cm}}$

7. _____

15) $50 \div 5 = 10 \text{ r } \underline{\hspace{2cm}}$

16) $6,791 \div 2 = 3,395 \text{ r } \underline{\hspace{2cm}}$

8. _____

17) $603 \div 5 = 120 \text{ r } \underline{\hspace{2cm}}$

18) $3,920 \div 5 = 784 \text{ r } \underline{\hspace{2cm}}$

9. _____

19) $943 \div 5 = 188 \text{ r } \underline{\hspace{2cm}}$

20) $90 \div 5 = 18 \text{ r } \underline{\hspace{2cm}}$

10. _____

11. _____

12. _____

13. _____

14. _____

15. _____

16. _____

17. _____

18. _____

19. _____

20. _____

Use multiplication rules to determine the missing remainder for each problem.
